TESTIMONIAL FOR TATA LPO 1618 BUS

Date: 12-01-2017

OWN 2 TATA LPO 1618 BUSES RUNNING FROM BHUBANESWAR TO BHWANIPATNA. I AM VERY MUCH SATISFIED WITH THE PRODUCT AND SUPPORT PROVIDED BY TATA MOTORS

Dear Sir/Mam,

I am Debasish Behera, Owner of Samrat Buses and we have 2 TATA LPO 1618 buses. I have purchased my first 1618 bus 1.5 years back and I was so satisfied with the product that I bought 2nd 1618 in Oct 2016. Our bus run in Bhubaneswar – Bhawanipatna route with Reg No: OD02AA2550 and have an average running of over 480 kms/day.

Below are the things which is good about product:

1. Retarder which is given in TATA LPO 1618 bus is of very good quality. I am very much satisfied with it and recommend other users also.
2. Because of the retarder, we get very good life of Brake Shoe life. My vehicle has run over 1.2 lacs km and it looks absolutely fine.
3. Pump also looks fine. Its auto-drain feature is excellent which I couldn't find in any other competitor's product. We didn't find any issue with it and hope it works fine in future also.
4. We are getting fuel mileage of over 3.8+kmpl in the Bhubaneswar – Bhawanipatna route which is extremely good and have added great profit to my business.

In all am very much satisfied with the product and in future also I will buy this vehicle only.
