TO WHOM IT MAY EVER CONCERN

It is to place on record that we are using 4 Ultra School Bus of TATA Motors for daily conveyance of students and staff of our institution. One Bus was purchased in 2013 and 3 during Jun to Aug 2014.

We are quite satisfied with the performance of these Vehicles. It has truly kept up to its promise of safety, reliability, comfort, and mileage. Till date the vehicles have not troubled us any maintenance.

The international standards of Tata Starbus Ultra Marcopolo which the vehicle brings forward accompanied with the aesthetic interior and futuristic exteriors said the vehicle apart. The look and the design of the vehicle are superior to other brand vehicles.

Our institute is expanding at a good pace alongwith our other group institutions. We will be having further requirements and we are confident of adding more Ultra Buses into our fleet in the future.

We are satisfied with the performance of the vehicles as well as the after sales service from **MG Motors**.

I convey my sincere thanks to the complete family of **Tata Motors Limited** as well as **MG Motors, Commercial Vehicle Dealer (Tata Motors)** for providing such a broad range of quality vehicles.
